

AI Training Program: Unlock the Power of Microsoft Copilot

Presented by: Rizeware Solutions
in Partnership With PC Halle

Global Leaders in Digital Transformation

Why AI Matters for You

Artificial Intelligence (AI) is transforming industries across the globe, and its potential applications are nearly limitless. Now, more than ever, business and technical professionals need to have a strong grasp of AI to stay ahead of the curve. With the right knowledge, you can lead the charge in implementing AI strategies that enhance your organization's success.

About the Training

We're excited to invite you to a comprehensive AI training course focused on Microsoft Copilot, a cutting-edge AI engine used by more than 400 million people worldwide. Whether you're new to AI or looking to deepen your knowledge, this course will help you master AI tools and techniques that are reshaping business processes.

Meet Your Trainer: Brian Haley

Brian Haley brings over 25 years of expertise in Learning and Development and 30+ years of experience in technology. As an industry veteran, he has worked extensively in Enterprise Software, Cloud Computing, and Programming. His deep technical knowledge, combined with hands-on experience, has made him a trusted guide in leveraging AI-powered solutions to optimize business operations. In his role as Director of Learning and Development at Rizeware Solutions, Brian ensures participants gain practical insights and actionable skills to implement AI strategies effectively within their organizations.

Course Highlights

- **Master AI and Generative AI Technologies:** Understand the key concepts and real-world applications of AI.
- **Optimize Workflows with Microsoft Copilot:** Learn how to integrate AI into daily business operations for maximum efficiency.
- **Hands-on Experience with Copilot Studio:** Gain practical skills in building AI solutions using Topics, Nodes, and Build Types.
- **API and Power FX Integration:** Develop advanced automation workflows to streamline operations.
- **Enhance Customer Experiences with AI:** Discover how AI can improve both internal processes and customer interactions.
